

EduGenie Project

Topic 3 — qna.py — Question Answering

```
from gemini_client import generate_text

def answer_question(question: str) -> str:
    prompt = f"""
    You are EduGenie, a student-friendly educational assistant.
    Answer the user's question accurately and concisely.
    Use simple language. If the question is ambiguous, state the assumption.
    Do not invent sources, facts, citations, or links.

    Question:
    {question}
    """
    return generate_text(prompt)
```
